

MICHAEL ANDERSON

Lead Automation Testing Engineer

A dynamic Automation Testing Engineer with 9 years of comprehensive experience in the manufacturing sector, focusing on the automation of quality assurance processes. Proven ability to develop and implement testing frameworks that enhance product quality and operational efficiency. Expertise in utilizing tools such as Selenium, QTP, and LoadRunner to automate testing processes for manufacturing software applications.

WORK EXPERIENCE

Lead Automation Testing Engineer

2020-2023

Manufacturing Solutions Corp.

- Developed and maintained automated test scripts using Selenium for manufacturing applications.
- Worked closely with production teams to identify testing requirements and challenges.
- Implemented performance testing strategies to validate system capacity.
- Provided training and mentorship to junior testing staff.
- Utilized JIRA for defect tracking and reporting.
- Conducted root cause analysis of defects to improve testing processes.

Automation Engineer

2019-2020

Industrial Innovations Inc.

- Executed automated test cases for various manufacturing software solutions.
- Participated in Agile ceremonies to enhance team collaboration.
- Utilized testing tools to ensure compliance with industry standards.
- Conducted exploratory testing to identify potential issues.
- Reported and tracked defects using Bugzilla.
- Assisted in the transition from manual to automated testing processes.

ACHIEVEMENTS

- Improved product quality by implementing automated testing frameworks.
- Recognized for outstanding contributions to quality assurance initiatives.
- Successfully reduced testing cycle time by 40% through automation.
