WORK EXPERIENCE

Compliance Engineer

2020-2023

AutoRegulatory Solutions

- Managed compliance documentation for automotive products, ensuring adherence to regulations.
- Conducted safety assessments for new vehicle models, identifying potential risks.
- Collaborated with design teams to integrate safety features into vehicle designs.
- Developed training materials on regulatory compliance for engineering staff.
- Participated in regulatory audits, providing necessary documentation and support.
- Monitored changes in regulations to keep the company informed and compliant.

Safety Engineer

2019-2020

Secure Automotive Inc.

- Conducted crash test analysis to evaluate vehicle safety performance.
- Collaborated with engineering teams to enhance safety features in production vehicles.
- Maintained documentation for safety compliance and testing results.
- Assisted in the development of safety protocols and guidelines.
- Participated in safety training sessions for production staff.
- Supported investigations into safety incidents to implement corrective actions.

ACHIEVEMENTS

- Successfully led compliance initiatives that resulted in zero non-conformance reports.
- Recognized for contributions to improving vehicle safety ratings through design enhancements.
- Developed a comprehensive safety training program adopted company-wide.
