

MICHAEL ANDERSON

Lighting Systems Engineer

A creative and analytical Automotive Electrical Engineer specializing in automotive lighting and display technologies. With three years of experience in the automotive sector, focused on designing and implementing innovative lighting solutions that enhance vehicle aesthetics and functionality. Strong technical skills combined with a passion for design and user experience. Proven ability to collaborate with design and engineering teams to deliver high-quality products that meet market demands.

EDUCATION

Bachelor of Science in Electrical Engineering

University of Florida
2019

SKILLS

- Lighting Systems
- Design
- CAD Software
- Compliance Testing
- Project Documentation
- Team Collaboration

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Lighting Systems Engineer

2020-2023

Bright Automotive Solutions

- Designed innovative lighting systems for automotive applications.
- Collaborated with design teams to create aesthetically pleasing solutions.
- Conducted testing to ensure compliance with safety standards.
- Utilized CAD software for design and modeling.
- Participated in design reviews to provide technical feedback.
- Maintained project documentation for quality assurance.

Junior Electrical Engineer

2019-2020

AutoVision Technologies

- Assisted in the development of electrical systems for display technologies.
- Conducted tests to validate performance and reliability.
- Collaborated with cross-functional teams on product development.
- Provided documentation for project specifications.
- Maintained communication with stakeholders to ensure project alignment.
- Participated in training sessions on new technologies.

ACHIEVEMENTS

- Designed a lighting solution that increased vehicle visibility by 30%.
- Recognized for innovative contributions to product design.
- Improved testing efficiency, reducing time by 10%.
