- community engagement
- stakeholder collaboration

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF ARTS IN ECONOMICS, UNIVERSITY OF CALIFORNIA, BERKELEY

ACHIEVEMENTS

- Successfully identified three new air routes, increasing regional connectivity.
- Received recognition for outstanding research contributions to aviation policy.
- Contributed to a project that improved passenger satisfaction ratings by 15%.

AIR SERVICE DEVELOPMENT ANALYST

Results-driven Aviation Planning Analyst with a strong focus on data analytics and operational strategy. Possesses a rich background in air service development and demand forecasting, complemented by a comprehensive understanding of aviation policies and regulations. Demonstrates expertise in utilizing quantitative methods to optimize airport operations and enhance customer satisfaction. Proven ability to work collaboratively with governmental agencies and industry stakeholders to drive strategic initiatives.

WORK EXPERIENCE

AIR SERVICE DEVELOPMENT ANALYST

SkyHigh Consulting

2020 - 2025

- Conducted market analysis to identify opportunities for new air routes and services.
- Collaborated with airlines to optimize scheduling and improve service reliability.
- Utilized statistical tools to forecast passenger demand and operational needs.
- Facilitated community outreach programs to gather feedback on air service needs.
- Prepared detailed reports for stakeholders to support air service initiatives.
- Monitored trends in passenger traffic and adjusted strategies accordingly.

AVIATION POLICY ANALYST

Aviation Policy Institute

2015 - 2020

- Researched and analyzed aviation policies to inform regulatory recommendations.
- Developed policy briefs for state and federal agencies on key aviation issues.
- Collaborated with industry experts to assess the impact of proposed regulations.
- Presented analytical findings to policymakers, enhancing decision-making processes.
- Participated in workshops and conferences focused on aviation policy development.
- Contributed to publications on the implications of aviation trends on policy.
