## SKILLS

- Java
- Spring
- RESTful APIs
- SQL
- HIPAA Compliance
- Agile
- Security Audits

## EDUCATION

**BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING, UNIVERSITY OF HEALTH SCIENCES, 2016**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Led a project that improved patient data retrieval times by 40%.
- Received recognition for contributions to HIPAA compliance and data security efforts.
- Successfully launched a telemedicine feature that increased patient engagement by 25%.

# Michael Anderson

## SENIOR BACKEND DEVELOPER

Detail-oriented Backend Web Developer with 6 years of experience specializing in healthcare applications. Expertise in Java and Spring, focusing on HIPAA-compliant solutions. Proven ability to analyze complex user requirements and deliver secure, efficient applications. Strong collaboration skills, having worked closely with cross-functional teams to ensure software meets regulatory standards. Committed to using technology to improve patient outcomes and streamline healthcare processes.

## EXPERIENCE

### SENIOR BACKEND DEVELOPER

HealthTech Solutions

2016 - Present

- Developed secure backend systems for healthcare applications, ensuring HIPAA compliance.
- Implemented RESTful APIs for patient data management and appointment scheduling.
- Collaborated with UX/UI designers to create user-friendly interfaces for healthcare professionals.
- Conducted security audits and performance testing to identify and resolve vulnerabilities.
- Mentored junior developers and conducted training sessions on best practices.
- Maintained comprehensive documentation of system architecture and processes.

### BACKEND DEVELOPER

MedApp Inc.

2014 - 2016

- Assisted in the development of a telemedicine platform, streamlining patient-provider communications.
- Utilized Java and Spring Boot to build scalable backend services.
- Worked with SQL databases to manage sensitive patient information securely.
- Engaged in Agile methodology, participating in sprint planning and reviews.
- Conducted troubleshooting and optimization of existing systems, enhancing performance.
- Documented technical specifications and user guides for internal use.
