SUMMARY

As a seasoned Behavior Change Scientist with over 10 years of experience in public health, I specialize in designing and implementing large-scale interventions that foster sustainable behavioral change in diverse populations. My career has been dedicated to understanding the psychological and social factors that influence health-related behaviors. I have successfully led projects focusing on smoking cessation, obesity prevention, and mental health awareness.

WORK EXPERIENCE

Senior Behavioral Scientist Health Innovations Group   *Jan 2023 - Present*

- Led a team to evaluate the impact of a smoking cessation program that decreased smoking rates by 30% within a year.
- Developed and implemented a behavioral intervention targeting nutrition education in underserved communities.
- Utilized statistical software to analyze data sets, resulting in the identification of key factors influencing behavior change.
- Conducted focus groups and interviews to gain qualitative insights, enhancing program effectiveness.
- Collaborated with local health departments to align initiatives with community needs and resources.
- Presented findings at national conferences, elevating the visibility of the organization's work.

Behavioral Research Analyst National Institute of Health   *Jan 2020 - Dec 2022*

- Analyzed data from behavioral interventions, contributing to a 15% increase in participant engagement.
- Designed surveys and assessments to measure the effectiveness of health programs.
- Worked closely with interdisciplinary teams to develop evidence-based recommendations for policy changes.
- Managed project timelines and deliverables, ensuring adherence to funding requirements.
- Facilitated training workshops for community health workers on behavior change strategies.
- Published research findings in peer-reviewed journals, enhancing the organization's reputation in the field.

EDUCATION

Ph.D. in Public Health, University of California, Berkeley   *Sep 2019 - Oct 2020*
