# MICHAEL ANDERSON

## BEHAVIORAL HEALTH ECONOMIST

Insightful Behavioral Economist with a focus on health economics and over 8 years of experience in designing and evaluating public health interventions. My passion lies in understanding how behavioral factors influence health-related decisions and outcomes. I have worked extensively with government agencies and non-profit organizations to develop programs that address public health challenges, such as smoking cessation, obesity prevention, and mental health awareness.

## **PROFESSIONAL EXPERIENCE**

### **Global Health Initiative**

*Mar 2018 - Present*

Behavioral Health Economist

- Designed evaluation frameworks for assessing public health interventions.
- Conducted research on behavioral determinants of health outcomes in vulnerable populations.
- Collaborated with multidisciplinary teams to develop evidence-based health programs.
- Presented findings at national conferences, enhancing visibility for health initiatives.
- Managed project budgets and timelines, ensuring successful implementation of programs.
- Published reports that informed policy decisions at the local and national levels.

### **Center for Health Policy Research**

*Dec 2015 - Jan 2018*

Research Associate

- Assisted in the design and analysis of health-related surveys and studies.
- Utilized statistical software to analyze data and interpret results.
- Collaborated with health professionals to develop community-based interventions.
- Contributed to grant proposals, securing funding for research projects.
- Engaged with community stakeholders to gather qualitative data on health behaviors.
- Improved data collection processes, enhancing the quality of research outputs.

## **ACHIEVEMENTS**

- Increased program participation by 50% through targeted outreach strategies.
- Received the 'Excellence in Research Award' from the Public Health Association in 2021.
- Authored a seminal paper on behavior change that was widely cited in health economics literature.
