Columbia University

2016-2020

⭐ SKILLS

- Educational Research
- Behavioral Interventions
- Data Analysis
- Student Engagement
- Policy Development
- Collaboration

🗛 LANGUAGES

- English
- Spanish
- French

Strategic Behavioral Insights Researcher with over 9 years of experience in the education sector, focusing on understanding student behaviors and learning processes. My expertise lies in designing and conducting research that informs educational practices and policies. I have successfully implemented projects that explore the impact of behavioral interventions on student engagement and academic outcomes.

💼 WORK EXPERIENCE

Senior Researcher   2020-2023

Educational Insights Institute

- Led research projects that improved student engagement by 30% through behavioral interventions.
- Developed assessment tools to measure the impact of teaching strategies on learning outcomes.
- Collaborated with teachers to integrate research findings into classroom practices.
- Presented findings at national education conferences, influencing policy discussions.
- Conducted longitudinal studies to track student progress over time.
- Authored research publications that contributed to the field of education.

Behavioral Research Coordinator   2019-2020

University of Education

- Assisted in developing research proposals for education-related studies.
- Conducted surveys and focus groups to assess student needs and experiences.
- Analyzed qualitative and quantitative data to derive insights for educational programs.
- Collaborated with faculty to align research with curricular goals.
- Prepared reports summarizing research findings for stakeholders.
- Coordinated workshops to share research insights with educators.

⭐ ACHIEVEMENTS

- Achieved recognition for outstanding contributions to educational research at the Educational Insights Institute.
- Implemented a successful initiative that increased student retention rates by 15%.
- Published influential research on behavioral strategies in education journals.
