EDUCATION

MASTER OF BEHAVIORAL ECONOMICS, UNIVERSITY OF CALIFORNIA, BERKELEY

ACHIEVEMENTS

- Contributed to a project that secured a $200,000 grant for economic research initiatives.
- Recognized for outstanding research contributions with a departmental award.
- Presented findings at an international conference, receiving positive feedback from experts.

PROFILE

With a robust background in behavioral economics and over 5 years of experience as a Behavioral Policy Researcher, I specialize in translating complex behavioral theories into practical policy applications. My journey began with a focus on consumer behavior, where I used data analytics to inform business strategies before transitioning to the public sector.

EXPERIENCE

BEHAVIORAL ECONOMIST

Economic Policy Institute

2016 - Present

- Conducted research on consumer behavior to influence economic policy recommendations.
- Utilized data visualization tools to present findings to stakeholders in an accessible manner.
- Developed behavioral interventions that improved program participation rates by 25%.
- Collaborated with economists and policymakers to refine data-driven solutions.
- Published research papers that contributed to the understanding of economic behaviors.
- Led workshops on behavioral economics for community leaders, enhancing local engagement.

RESEARCH ASSISTANT

University Behavioral Lab

2014 - 2016

- Assisted in designing experiments to study behavioral responses to economic policies.
- Collected and analyzed data using Python, providing insights for academic publications.
- Supported senior researchers in drafting reports that influenced university policy.
- Engaged with participants to ensure accurate data collection and ethical compliance.
- Contributed to research that garnered attention from local media and policymakers.
- Co-authored a paper on behavioral nudges and their impact on savings behavior.
