I am a passionate Behavioral Scientist with 5 years of experience in applying behavioral insights to public policy and social change. My background in social psychology equips me with the knowledge to analyze how policies impact societal behaviors. I have collaborated with governmental and non-profit organizations to design interventions that promote civic engagement and public health initiatives.

WORK EXPERIENCE

Behavioral Policy Analyst | Public Policy Institute   Jan 2022 – Present

- Conducted research on community behavior in response to public health campaigns, leading to a 20% increase in participation rates.
- Collaborated with policymakers to develop evidence-based recommendations for enhancing public compliance with health guidelines.
- Facilitated workshops with community leaders to promote understanding of behavioral insights in policy-making.
- Utilized statistical methods to analyze data from community surveys, informing program adjustments.
- Presented research findings to stakeholders, enhancing the transparency of policy initiatives.
- Participated in cross-functional teams to drive interdisciplinary approaches to public health challenges.

Research Assistant | Social Research Group   Jul 2019 – Dec 2021

- Assisted in the evaluation of social programs aimed at increasing community engagement, contributing to significant policy improvements.
- Conducted literature reviews to support grant applications for public health initiatives.
- Participated in focus groups to gather qualitative insights on community needs and perceptions.
- Analyzed data to track program effectiveness, leading to enhanced funding opportunities.
- Presented findings at community forums, fostering dialogue between researchers and residents.
- Supported the development of educational materials for community outreach programs.

SKILLS

Public Policy   Behavioral Research   Data Analysis   Community Engagement   Communication   Team Collaboration
