MICHAEL ANDERSON

LEAD BI ENGINEER

With over ten years of experience in Business Intelligence and data management, I have developed a comprehensive skill set that enables me to harness the power of data to drive business strategy and performance improvement. My career spans various industries, including telecommunications and manufacturing, where I have successfully led BI initiatives that have streamlined operations and increased profitability.

PROFESSIONAL EXPERIENCE

Telecom Solutions Group

Mar 2018 - Present

Lead BI Engineer

- Designed and implemented a data warehouse that consolidated multiple data sources, improving reporting accuracy by 30%.
- Led a team of analysts in developing visual reports using Power BI, contributing to a 25% increase in operational efficiency.
- Developed SQL scripts for data extraction and transformation, optimizing data processing times.
- Collaborated with IT to enhance data security protocols, ensuring compliance with industry standards.
- Conducted workshops on data literacy to empower non-technical staff in utilizing BI tools.
- Monitored data quality and integrity, implementing corrective measures as needed.

Manufacturing Dynamics Inc.

Dec 2015 - Jan 2018

BI Consultant

- Provided strategic BI consulting services that improved production efficiency by 20%.
- Developed and maintained interactive dashboards for executive reporting, enhancing visibility into key metrics.
- Utilized SAP BW for data integration and reporting, streamlining business processes.
- Conducted data analysis to identify cost-saving opportunities, resulting in a 15% reduction in expenses.
- Facilitated training sessions for management on BI best practices and tools.
- Participated in cross-functional teams to align BI strategies with business objectives.

ACHIEVEMENTS

- Led a BI initiative that resulted in a 40% increase in data accessibility for decision-makers.
- Received the Excellence in Innovation Award for developing a new data analysis framework.
- Developed a training program that improved data literacy across the organization by 50%.
