WORK EXPERIENCE

Forest Conservation Coordinator

2020-2023

Forests for Future

- Lead forest conservation initiatives aimed at protecting endangered forest ecosystems.
- Conduct ecological assessments to evaluate forest health and biodiversity.
- Collaborate with local communities to develop sustainable forest management practices.
- Implement restoration projects to rehabilitate degraded forest areas.
- Utilize remote sensing tools for monitoring forest cover changes.
- Prepare reports on conservation outcomes for stakeholders and funding agencies.

Ecological Consultant

2019-2020

Green Forest Alliance

- Provide expertise in forest management and conservation planning.
- Conduct workshops for local communities on sustainable forestry practices.
- Assess the impact of logging activities on forest biodiversity.
- Collaborate with NGOs to promote forest conservation initiatives.
- Analyze data to inform forest policy recommendations.
- Publish reports on forest health and conservation strategies.

ACHIEVEMENTS

- Restored 300 acres of degraded forest, leading to a 45% increase in biodiversity.
- Secured funding for multiple forest conservation projects totaling over \$1 million.
- Recognized for outstanding contributions to forest conservation by the National Forestry Association.
