## **EXPERTISE SKILLS**

- Marine biology
- Research design
- Aquaculture training
- Communication skills
- Project evaluation
- Collaboration

## **LANGUAGES**

- English
- Spanish
- French

## **CERTIFICATION**

- B.Sc. in Marine Biology, Oceanic University

# MICHAEL ANDERSON

## LEAD BIOFLOC RESEARCHER

Innovative Biofloc Technology Specialist with a robust background in marine biology and aquaculture practices. Highly skilled in the design and implementation of biofloc systems that promote sustainable fish farming. Extensive experience in conducting applied research to enhance biofloc methodologies, contributing to increased productivity and environmental stewardship. Recognized for developing training programs tailored to diverse audiences within the aquaculture sector.

## **PROFESSIONAL EXPERIENCE**

### **Global Aquaculture Research Group**

*Mar 2018 - Present*

Lead Biofloc Researcher

- Led research projects to assess biofloc systems' efficiency in various species.
- Developed innovative feeding strategies to maximize growth.
- Collaborated with international teams on research initiatives.
- Published findings in reputable aquaculture journals.
- Organized symposiums on biofloc advancements.
- Mentored junior researchers in biofloc methodologies.

### **National Fisheries Department**

*Dec 2015 - Jan 2018*

Aquaculture Extension Officer

- Provided technical assistance to farmers implementing biofloc systems.
- Conducted field demonstrations to showcase biofloc benefits.
- Developed outreach materials to educate communities.
- Coordinated workshops and training sessions on aquaculture.
- Maintained databases for tracking project outcomes.
- Evaluated the economic impact of biofloc systems.

## **ACHIEVEMENTS**

- Increased awareness of biofloc technology in rural communities.
- Recipient of the Best Research Paper Award in 2021.
- Successfully led a project that improved farmer incomes by 40%.
