Michael Anderson

BIOFLOC TECHNICAL ADVISOR

Dedicated Biofloc Technology Specialist with a focus on practical application and community engagement in aquaculture. Experienced in designing and implementing biofloc systems tailored to local conditions and species. Demonstrated ability to work directly with farmers to enhance their operational success and sustainability. Skilled in providing hands-on training and support to promote best practices in biofloc management.

EXPERIENCE

BIOFLOC TECHNICAL ADVISOR

Community Aquaculture Network

2016 - Present

- Advised local farmers on biofloc system design and implementation.
- Conducted on-site assessments to optimize existing biofloc systems.
- Facilitated training sessions for farmers and community groups.
- Provided ongoing support to ensure successful biofloc adoption.
- Collaborated with NGOs to promote sustainable aquaculture practices.
- Documented case studies highlighting successful biofloc projects.

AQUACULTURE EXTENSION EDUCATOR

Local Fisheries Co-op

2014 - 2016

- Developed educational programs focused on biofloc management.
- Coordinated workshops to enhance farmer skills and knowledge.
- Provided technical support for biofloc equipment installation.
- Monitored water quality and system health for local operations.
- Engaged with community leaders to promote aquaculture initiatives.
- Evaluated program effectiveness and provided feedback for improvement.
