### WORK EXPERIENCE

#### Regulatory Affairs Manager

2020-2023

AgriBio Innovations

- Led regulatory submissions for GMO crops, achieving successful approvals from USDA and EPA.
- Developed comprehensive risk assessment reports for biopesticide products.
- Collaborated with R&D teams to ensure regulatory compliance during product development.
- Prepared and presented data to regulatory agencies, facilitating timely reviews.
- Conducted environmental impact assessments to support product registrations.
- Trained cross-functional teams on regulatory requirements and compliance strategies.

#### Regulatory Affairs Specialist

2019-2020

GreenTech Solutions

- Assisted in preparing regulatory submissions for biopesticide products, ensuring compliance with EPA regulations.
- Conducted literature reviews to support risk assessments and regulatory submissions.
- Maintained regulatory documentation and files for audits.
- Collaborated with external stakeholders to address regulatory inquiries.
- Participated in the development of training materials for compliance education.
- Supported the compilation of data for annual regulatory reporting requirements.

### ACHIEVEMENTS

- Successfully managed the approval process for a new GMO crop, reducing time to market by 20%.
- Recognized with the 'Outstanding Contributor' award for excellence in regulatory affairs.
- Developed a risk assessment framework that improved submission quality and reduced rejections.
