EDUCATION

BACHELOR OF SCIENCE IN MICROBIOLOGY, UNIVERSITY OF SCIENCE, 2014

ACHIEVEMENTS

- Developed a biosecurity training program that increased compliance by 40%.
- Recognized for excellence in laboratory safety by the State Health Department.
- Contributed to the successful accreditation of the laboratory under biosecurity standards.

PROFILE

A detail-oriented Biosecurity Specialist with a robust background in laboratory biosecurity and pathogen control. Over eight years of dedicated experience in developing and implementing biosecurity measures in laboratory settings, ensuring compliance with federal regulations. Proficient in conducting risk assessments and laboratory audits, identifying potential hazards, and recommending corrective actions. Skilled in training staff on best practices for laboratory safety and biosecurity, fostering a culture of safety within organizations.

EXPERIENCE

LABORATORY BIOSECURITY MANAGER

Advanced Research Labs

2016 - Present

- Implemented biosecurity protocols in compliance with federal regulations.
- Conducted regular audits and risk assessments of laboratory operations.
- Developed training materials and conducted workshops for laboratory staff.
- Collaborated with safety officers to enhance laboratory safety measures.
- Managed incident response plans for biosecurity breaches.
- Monitored and reported on biosecurity compliance metrics.

BIOSECURITY TECHNICIAN
