SKILLS

- Interdisciplinary Teaching
- Research Coordination
- Sustainability Practices
- Community Engagement
- Grant Writing
- Critical Analysis

LANGUAGES

- English
- Spanish
- French

EDUCATION

**M.S. IN BIOTECHNOLOGY AND ENVIRONMENTAL SCIENCE,
UNIVERSITY OF GREEN INNOVATION**

ACHIEVEMENTS

- Received the Green Educator Award for contributions to sustainable education in 2022.
- Increased student enrollment in environmental biotechnology courses by 35%.
- Published research findings in leading environmental science journals.

WORK EXPERIENCE

BIOTECHNOLOGY AND ENVIRONMENTAL SCIENCE INSTRUCTOR

EcoTech University

2020 - 2025

- Designed and taught courses integrating biotechnology with environmental science.
- Led student research projects addressing sustainability challenges.
- Facilitated partnerships with environmental organizations for student internships.
- Utilized case studies to encourage critical thinking and problem-solving.
- Organized symposiums on biotechnology's role in environmental conservation.
- Mentored students in independent research leading to publication.

RESEARCH COORDINATOR

Sustainable Solutions Institute

2015 - 2020

- Oversaw research projects focused on biotechnological solutions for environmental issues.
- Collaborated with scientists to publish findings in peer-reviewed journals.
- Secured funding for research initiatives through grant writing.
- Presented research at national and international conferences.
- Engaged with community stakeholders to promote research findings.
- Developed educational materials for public awareness campaigns.
