EXPERTISE SKILLS

- Cell Culture
- Bioprocessing
- Project Management
- Regulatory Compliance
- Team Leadership
- Quality Control

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- B.S. in Biotechnology, University of California, San Diego, 2012

MICHAEL ANDERSON

BIOPROCESSING MANAGER

Accomplished Biotechnology Lab Manager with extensive experience in cell culture and bioprocessing. Expertise in leading multidisciplinary teams in the successful execution of complex research projects. Remarkable ability to integrate innovative technologies into laboratory practices, resulting in enhanced operational efficiency and breakthrough discoveries. Adept at establishing and maintaining laboratory standards that comply with federal regulations and industry best practices.

PROFESSIONAL EXPERIENCE

CellTech Biologics

Mar 2018 - Present

Bioprocessing Manager

- Oversaw bioprocess development and optimization for therapeutic protein production.
- Implemented continuous improvement initiatives that reduced production costs by 15%.
- Led a team of 12 scientists in developing scalable cell culture processes.
- Established quality control measures that improved product consistency.
- Collaborated with regulatory teams to facilitate successful product submissions.
- Trained staff in advanced bioprocessing techniques, enhancing team capabilities.

BioPharma Corp

Dec 2015 - Jan 2018

Laboratory Coordinator

- Coordinated laboratory activities to support drug discovery initiatives.
- Managed inventory and procurement processes, ensuring timely availability of reagents.
- Facilitated cross-departmental collaboration to enhance project outcomes.
- Monitored compliance with safety and regulatory standards.
- Implemented training programs for new technologies, improving team performance.
- Developed documentation practices that increased data integrity.

ACHIEVEMENTS

- Played a key role in the successful launch of a new biologic product, exceeding sales targets.
- Recognized for excellence in project management with a company-wide award.
- Increased laboratory throughput by 30% through process optimization.
