MICHAEL ANDERSON

THREAT INTELLIGENCE ANALYST

Proactive Blue Team Engineer with a strong emphasis on threat intelligence and vulnerability assessment. With over 4 years in the cybersecurity field, I have developed a keen understanding of attack vectors and the methodologies used by adversaries. Skilled in leveraging threat intelligence to anticipate potential security incidents and formulate effective defense strategies.

PROFESSIONAL EXPERIENCE

InfoSec Solutions

Mar 2018 - Present

Threat Intelligence Analyst

- Monitored threat intelligence feeds to identify emerging threats and vulnerabilities.
- Conducted vulnerability assessments and penetration tests on critical systems.
- Collaborated with development teams to integrate security into the software development lifecycle.
- Prepared threat reports and briefings for stakeholders to inform security strategies.
- Developed and maintained relationships with external threat intelligence communities.
- Utilized tools such as Metasploit and Nessus for security assessments.

CyberGuard Associates

Dec 2015 - Jan 2018

Security Consultant

- Advised clients on security best practices and developed tailored security solutions.
- Conducted risk assessments and security audits for various organizations.
- Developed training materials for clients on awareness of social engineering tactics.
- Assisted in the implementation of security frameworks such as CIS Controls.
- Provided 24/7 monitoring support for client security incidents.
- Created vulnerability management plans, resulting in enhanced security postures for clients.

ACHIEVEMENTS

- Contributed to a project that reduced vulnerabilities by 25% across client systems.
- Received a commendation for exceptional threat intelligence analysis from management.
- Successfully led a workshop on threat modeling for over 50 participants.
