SKILLS

- Incident Response
- Digital Forensics
- Security Investigation
- Malware Analysis
- Forensic Tools
- Legal Compliance

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

ACHIEVEMENTS

- Reduced incident resolution time by 40% through optimized response protocols.
- Received an award for excellence in digital forensics from industry peers.
- Successfully led a team that recovered 95% of lost data from compromised systems.

WORK EXPERIENCE

INCIDENT RESPONSE ENGINEER

DefendNet Corp

2020 - 2025

- Led incident response efforts for over 50 security incidents, coordinating with cross-functional teams.
- Utilized digital forensics tools to investigate breaches and document findings.
- Developed incident response plans and playbooks that improved response efficiency by 35%.
- Conducted training sessions on incident response procedures for IT staff.
- Worked closely with law enforcement agencies on cybercrime investigations.
- Analyzed malware samples to understand attack vectors and inform future defenses.

DIGITAL FORENSICS SPECIALIST

DataSec Solutions

2015 - 2020

- Performed forensic analysis on compromised systems to recover lost data and identify breach sources.
- Created forensic reports for legal proceedings, detailing evidence and methodologies used.
- Developed and implemented forensic investigation protocols to enhance team efficiency.
- Collaborated with law enforcement and legal teams on ongoing investigations.
- Provided expert testimony in court regarding technical findings from investigations.
- Educated clients on best practices for digital evidence preservation.
