

MICHAEL ANDERSON

Application Security Engineer

Innovative Blue Team Engineer with 3 years of experience specializing in application security and secure coding practices. My focus is on integrating security within the development process to prevent vulnerabilities in software applications. Skilled in performing source code reviews and security assessments to identify weaknesses. I possess strong problem-solving abilities and communicate effectively with development teams to implement necessary changes.

EDUCATION

Bachelor of Science in Software Engineering

University
2016-2020

SKILLS

- Application Security
- Secure Coding
- Vulnerability Assessment
- Code Review
- Security Training
- DevSecOps

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Application Security Engineer

2020-2023

SecureCode Labs

- Conducted application security assessments and code reviews to identify vulnerabilities.
- Developed secure coding guidelines for development teams to follow.
- Worked with developers to remediate security flaws in applications.
- Utilized tools like OWASP ZAP and Fortify to automate security testing.
- Collaborated on security training initiatives for software engineers.
- Analyzed application logs to detect anomalies and potential threats.

Security Analyst

2019-2020

DevSecOps Innovations

- Assisted in the development of security policies and best practices for application development.
- Performed vulnerability assessments on web applications to identify security risks.
- Provided guidance on secure software development lifecycle practices.
- Supported incident response efforts for application-related security incidents.
- Facilitated workshops on secure coding practices for developers.
- Collaborated with QA teams to integrate security testing into the testing process.

ACHIEVEMENTS

- Reduced security vulnerabilities in applications by 20% through improved testing protocols.
- Recognized for excellence in secure software development practices.
- Successfully led a project to implement CI/CD security controls.
