MICHAEL ANDERSON

LEAD BUILD ENGINEER

Accomplished Build and Release Engineer with 10 years of experience in software development and DevOps. Highly skilled in designing and implementing automated build systems and optimizing release processes for enterprise applications. Proven ability to lead teams in the successful execution of complex projects while maintaining a focus on quality and efficiency.

PROFESSIONAL EXPERIENCE

Enterprise Solutions Group

Mar 2018 - Present

Lead Build Engineer

- Led the migration of CI/CD processes to GitLab CI, improving deployment frequency by 50%.
- Developed and maintained automated build scripts, reducing manual intervention by 60%.
- Collaborated with product teams to define release schedules and ensure timely delivery.
- Implemented security measures in the build environment to safeguard code integrity.
- Mentored junior engineers in build and release strategies and best practices.
- Conducted performance reviews and provided feedback to enhance team capabilities.

Tech Dynamics Inc.

Dec 2015 - Jan 2018

Build Engineer

- Designed and implemented automated build processes, resulting in 25% faster releases.
- Managed version control and branching strategies to optimize collaboration among teams.
- Integrated testing frameworks into the build process to enhance code quality.
- Collaborated with DevOps teams to configure monitoring solutions for build pipelines.
- Documented build and release workflows for clarity and training purposes.
- Participated in Agile ceremonies to ensure alignment with project goals.

ACHIEVEMENTS

- Increased deployment efficiency, leading to a 30% reduction in downtime.
- Recognized as 'Employee of the Year' for exceptional contributions to the DevOps transformation.
- Successfully managed a project that improved build times by 40% across the organization.
