MICHAEL ANDERSON

LEAD BUILDING AUTOMATION ENGINEER

Seasoned Building Automation Engineer with over 12 years of extensive experience in the integration and management of complex building systems. Possesses a deep understanding of building automation technologies, energy management practices, and regulatory compliance. Demonstrated success in leading large-scale automation projects, ensuring alignment with client objectives and industry standards. Strong leadership capabilities, fostering collaboration among stakeholders to achieve project milestones.

PROFESSIONAL EXPERIENCE

National Energy Solutions

Mar 2018 - Present

Lead Building Automation Engineer

- Oversaw the design and execution of multi-million dollar building automation projects.
- Developed comprehensive project plans, budgets, and timelines.
- Implemented advanced energy management systems to reduce waste.
- Trained and mentored junior engineers and technicians.
- Coordinated with regulatory bodies to ensure compliance with codes.
- Analyzed system performance metrics to inform future upgrades.

Innovative Controls Group

Dec 2015 - Jan 2018

Building Automation Consultant

- Provided expert consultation on building automation system design and implementation.
- Conducted thorough needs assessments for diverse client portfolios.
- Facilitated workshops to educate clients on automation benefits.
- Collaborated with engineering teams to optimize system functionality.
- Developed cost-saving strategies that reduced client expenses significantly.
- Maintained up-to-date knowledge of industry trends and technologies.

ACHIEVEMENTS

- Successfully delivered three major projects under budget and ahead of schedule.
- Received 'Outstanding Engineer' award for innovative project solutions.
- Improved operational efficiency by 40% for a key client through system upgrades.
