

MICHAEL ANDERSON

BUILDING AUTOMATION PROJECT MANAGER

PROFILE

Dynamic and results-driven Building Automation Specialist with a strong foundation in the integration of sophisticated control systems and energy management solutions. Extensive experience in developing and executing strategies that enhance operational efficiency and sustainability within various building environments. Proven expertise in utilizing advanced technologies to monitor and manage energy consumption, significantly reducing operational costs.

EXPERIENCE

BUILDING AUTOMATION PROJECT MANAGER

Smart Building Solutions

2016 - Present

- Managed multiple building automation projects from conception to completion, ensuring timely delivery.
- Oversaw the integration of energy management systems across diverse facilities.
- Developed project scopes, budgets, and timelines, resulting in a 25% reduction in project overruns.
- Implemented quality control measures to uphold the highest standards of system performance.
- Engaged with clients to assess needs and tailor automation solutions accordingly.
- Conducted training sessions for end-users to maximize system utilization and efficiency.

AUTOMATION SYSTEMS TECHNICIAN

EcoTech Systems

2014 - 2016

- Installed and calibrated building automation systems for residential and commercial properties.
- Performed diagnostics and repairs on malfunctioning systems to restore functionality.
- Assisted in the development of energy-saving initiatives that led to a 10% reduction in overall energy costs.
- Maintained accurate records of system performance and maintenance activities.
- Collaborated with engineers to optimize system designs for new installations.
- Provided exceptional customer service, addressing client concerns promptly and effectively.
