MICHAEL ANDERSON

ELECTRICAL DESIGNER

Creative and detail-oriented Building Electrical Engineer with a focus on residential and commercial renovations. With over 6 years of experience, I specialize in retrofitting older buildings with modern electrical systems that prioritize sustainability and efficiency. I have a strong understanding of building codes and regulations, which enables me to ensure all projects are compliant while meeting client needs.

PROFESSIONAL EXPERIENCE

EcoHome Innovations

Mar 2018 - Present

Electrical Designer

- Designed electrical layouts for over 50 residential renovation projects, enhancing energy efficiency.
- Collaborated with architects to integrate smart home technologies into new designs.
- Conducted site assessments to ensure compliance with local building codes.
- Managed project timelines, delivering projects 20% faster than industry standards.
- Provided post-installation support, ensuring client satisfaction and system performance.
- Created detailed reports for clients on energy savings achieved through renovations.

Urban Design Associates

Dec 2015 - Jan 2018

Junior Electrical Engineer

- Assisted in the development of electrical plans for commercial properties.
- Performed calculations to determine load requirements for various systems.
- Supported senior engineers during project design phases, enhancing team collaboration.
- Participated in site inspections to ensure installations met design specifications.
- Created documentation for project closeout, improving future project efficiency.
- Conducted research on sustainable materials and technologies for electrical systems.

ACHIEVEMENTS

- Developed a renovation project that received a regional award for sustainability.
- Achieved a 95% customer satisfaction rating through excellent project delivery.
- Implemented a new reporting system that improved project tracking by 40%.
