## WORK EXPERIENCE

### Environmental Land Officer

2020-2023

Green Land Initiative

- Conducted comprehensive environmental assessments for land development projects.
- Collaborated with conservation organizations to develop sustainable land use strategies.
- Managed projects focused on restoring degraded landscapes and habitats.
- Engaged with community stakeholders to promote awareness of environmental issues.
- Developed educational materials on sustainable land practices for public distribution.
- Presented findings to government bodies to inform policy decisions.

### Cadastral Surveyor

2019-2020

Environmental Planning Agency

- Performed land surveys to assess environmental impact for development projects.
- Maintained environmental data and records for compliance tracking.
- Collaborated with engineers to ensure sustainable design practices.
- Provided technical guidance on land use planning to stakeholders.
- Participated in public consultations to address community concerns.
- Prepared detailed reports on environmental assessments for regulatory submissions.

## ACHIEVEMENTS

- Successfully led a project that restored 100 acres of degraded land.
- Recognized for excellence in environmental advocacy within the community.
- Developed a sustainable land use policy adopted by local authorities.
