MICHAEL ANDERSON

SENIOR NETWORK ENGINEER

I am a results-driven Campus Network Engineer with over 10 years of experience in designing and implementing enterprise-grade networking solutions for educational institutions. My career has been defined by my ability to merge technical acumen with strategic planning, ensuring that network infrastructures not only meet current demands but also scale for future growth.

PROFESSIONAL EXPERIENCE

Global University   Mar 2018 - Present
Senior Network Engineer

- Designed and implemented a comprehensive network upgrade that improved bandwidth by 70%.
- Led a team of engineers in deploying a campus-wide VoIP solution.
- Developed disaster recovery protocols that ensured business continuity.
- Established network monitoring systems that reduced downtime to less than 1%.
- Conducted training for IT staff on the latest networking technologies and best practices.
- Created and maintained network documentation for compliance and audit purposes.

State Community College   Dec 2015 - Jan 2018
Network Engineer

- Implemented network security measures that reduced breach incidents by 40%.
- Configured and managed routers, switches, and firewalls for optimal performance.
- Collaborated with academic departments to ensure network resources met their needs.
- Monitored network traffic and resolved issues proactively to maintain high service levels.
- Documented all network changes and configurations for future reference.
- Participated in external audits to ensure compliance with industry standards.

ACHIEVEMENTS

- Awarded the Excellence in Engineering Award for outstanding project leadership.
- Improved network performance metrics by implementing advanced traffic management strategies.
- Successfully led a project that integrated cloud services into the existing network infrastructure.
