SKILLS

- CCS technology implementation
- Project management
- Feasibility studies
- Stakeholder communication
- Data analysis
- Regulatory compliance

LANGUAGES

- English
- Spanish
- French

EDUCATION

**M.SC. IN ENVIRONMENTAL POLICY,
UNIVERSITY OF CAMBRIDGE, 2016**

ACHIEVEMENTS

- Successfully reduced project costs by 15% through strategic planning and execution.
- Recognized for excellence in project management at the annual corporate awards.
- Contributed to the development of a new carbon capture policy framework adopted by local authorities.

WORK EXPERIENCE

CARBON CAPTURE PROJECT MANAGER

Renewable Energy Partners

2020 - 2025

- Managed large-scale carbon capture projects from inception to completion, ensuring alignment with sustainability goals.
- Conducted detailed feasibility studies that informed project direction and investment.
- Coordinated with engineering teams to design and implement efficient capture systems.
- Monitored project budgets and timelines to ensure financial accountability.
- Prepared and delivered presentations to executive leadership on project progress and outcomes.
- Engaged with regulatory agencies to secure necessary permits and approvals.

CARBON CAPTURE ANALYST

Environmental Solutions Inc.

2015 - 2020

- Analyzed data from carbon capture systems to assess performance and identify improvement areas.
- Developed reports detailing findings and recommendations for optimization.
- Collaborated with cross-functional teams to implement enhancements based on analysis.
- Conducted market research to identify emerging trends in carbon capture technology.
- Supported project managers in preparing project proposals and budgets.
- Participated in industry conferences to present analytical findings and network.
