## PROFILE

Dynamic Carbon Offset Program Manager with a robust background in environmental science and policy, specializing in the implementation of sustainable development initiatives. Extensive experience in managing complex projects within the climate action sphere, with a focus on measurable outcomes and stakeholder satisfaction. Proficient in leveraging technology and data analytics to drive program effectiveness and reporting.

## EXPERIENCE

### PROGRAM DIRECTOR, CARBON STRATEGY

#### Sustainable Earth Foundation

2016 - Present

- Directed the implementation of a multi-million dollar carbon offset program across multiple states.
- Established key performance indicators for tracking program impact and efficiency.
- Engaged with policymakers to advocate for supportive legislation regarding carbon offset activities.
- Oversaw budget management and resource allocation for program initiatives.
- Coordinated with marketing teams to develop outreach materials promoting carbon offset programs.
- Facilitated workshops and training sessions to enhance community engagement and education.

### CARBON OFFSET PROJECT MANAGER

#### EcoImpact Solutions

2014 - 2016

- Managed a portfolio of carbon offset projects, ensuring compliance with international standards.
- Developed project proposals and secured funding from various sources, including private investors.
- Conducted environmental impact assessments to inform project design and execution.
- Collaborated with scientific experts to enhance the accuracy of carbon sequestration calculations.
- Produced detailed reports for stakeholders, highlighting project outcomes and future opportunities.
- Monitored and evaluated project performance, implementing corrective measures as necessary.
