WORK EXPERIENCE

International Carbon Program Manager

2020-2023

Global Climate Action Network

- Oversaw international carbon offset projects, ensuring alignment with global sustainability goals.
- Engaged with governments and NGOs to coordinate project efforts across multiple countries.
- Conducted capacity-building workshops for local communities involved in carbon offset initiatives.
- Monitored project outcomes and prepared comprehensive reports for stakeholders.
- Advocated for policy changes to enhance the effectiveness of carbon offset programs.
- Collaborated with research institutions to evaluate the impact of projects on local ecosystems.

Environmental Policy Advisor

2019-2020

United Nations Development Programme

- Advised on environmental policy frameworks to support sustainable development initiatives.
- Supported the implementation of carbon offset projects in developing nations.
- Conducted stakeholder consultations to gather insights and promote collaborative efforts.
- Prepared policy briefs and reports for international conferences.
- Facilitated training sessions for government officials on carbon management practices.
- Monitored compliance with international environmental agreements and standards.

ACHIEVEMENTS

- Successfully led a multinational carbon offset project that resulted in a 30% reduction in emissions.
- Recognized for contributions to the UN Sustainable Development Goals initiative.
- Increased funding for carbon offset projects by 50% through strategic partnerships.
