Michael Anderson

CARDIAC CARE NURSE - OUTPATIENT CLINIC

Passionate and experienced Cardiac Care Nurse with 6 years of experience in both inpatient and outpatient settings. I specialize in chronic disease management and preventive care for patients with cardiovascular diseases. My approach emphasizes education and self-management, empowering patients to take control of their health. I have successfully implemented care plans that align with patients' lifestyle choices and health goals.

EXPERIENCE

CARDIAC CARE NURSE - OUTPATIENT CLINIC

Healthy Heart Clinic

2016 - Present

- Managed care for patients with chronic cardiovascular conditions in an outpatient setting.
- Developed individualized care plans based on patient assessments.
- Conducted regular follow-ups to monitor patients' progress and adherence.
- Provided education on lifestyle modifications to promote heart health.
- Collaborated with dietitians and exercise physiologists to optimize care.
- Documented patient interactions and updated health records accurately.

STAFF NURSE - CARDIOLOGY UNIT

General Hospital

2014 - 2016

- Provided bedside care to patients with various cardiac conditions.
- Monitored heart rhythms and vital signs, reporting any changes promptly.
- Educated patients on medication management and disease prevention.
- Assisted in discharge planning and coordinated follow-up care.
- Participated in quality improvement projects to enhance patient care.
- Supported nursing students during clinical rotations, fostering a learning environment.
