

MICHAEL ANDERSON

LEAD CERTIFICATION ENGINEER

PROFILE

An innovative Certification Engineer with over 8 years of experience in the electronics industry, specializing in product certification and regulatory compliance. Demonstrates a strong background in developing and implementing certification strategies that align with industry standards and customer requirements. Expert in collaborating with engineering and design teams to optimize product designs for certification readiness.

EXPERIENCE

LEAD CERTIFICATION ENGINEER

Tech Innovations LLC

2016 - Present

- Oversaw certification processes for electronic devices, ensuring adherence to CE and FCC standards.
- Created and maintained certification documentation, including test reports and compliance files.
- Worked closely with product development teams to integrate certification requirements early in the design phase.
- Managed relationships with external testing laboratories to expedite certification timelines.
- Conducted training sessions for engineering teams on certification processes and requirements.
- Developed a risk management framework to identify and mitigate certification challenges.

CERTIFICATION ENGINEER

ElectroTech Corp.

2014 - 2016

- Executed certification testing for consumer electronics, ensuring compliance with international standards.
- Analyzed test data to identify trends and areas for product improvement.
- Collaborated with quality assurance teams to develop testing methodologies.
- Participated in cross-departmental projects to enhance overall product quality.
- Prepared and submitted compliance documentation to regulatory agencies.
- Maintained an organized database of certification records and documentation.
