## SKILLS

- Medical Device Certification
- Regulatory Compliance
- Documentation
- Audit Preparation
- Team Collaboration
- Data Analysis

## EDUCATION

**BACHELOR OF SCIENCE IN BIOMEDICAL ENGINEERING, STANFORD UNIVERSITY, 2015**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Successfully led a project that resulted in timely certification of a new medical device.
- Improved documentation processes, reducing preparation time by 15%.
- Recognized for outstanding contributions to product safety and compliance.

# Michael Anderson

## CERTIFICATION ENGINEER

A meticulous Certification Engineer with a focus on the medical device industry, possessing over 5 years of experience in ensuring product compliance with FDA regulations. Demonstrates expertise in conducting thorough testing and validation processes to meet safety and efficacy standards. Known for exceptional attention to detail and a commitment to maintaining the highest quality standards throughout the certification process.

## EXPERIENCE

### CERTIFICATION ENGINEER

MedTech Solutions

2016 - Present

- Conducted certification testing for medical devices, ensuring compliance with FDA and ISO standards.
- Developed and maintained comprehensive documentation for regulatory submissions.
- Collaborated with product development teams to integrate compliance requirements into design processes.
- Assisted in the preparation for regulatory audits and inspections.
- Trained engineering staff on certification requirements and best practices.
- Monitored changes in regulatory standards and updated processes accordingly.

### JUNIOR CERTIFICATION ENGINEER

Health Devices Corp.

2014 - 2016

- Supported certification testing for new medical products, ensuring adherence to regulatory standards.
- Helped prepare compliance documentation for submission to regulatory bodies.
- Analyzed test data and assisted in the preparation of reports for engineering reviews.
- Participated in internal audits to ensure compliance with certification processes.
- Maintained records of certification documentation for future reference.
- Contributed to team meetings focused on improving certification processes.
