- French

EDUCATION

BACHELOR OF SCIENCE IN FORESTRY, UNIVERSITY OF WASHINGTON

ACHIEVEMENTS

- Successfully launched a technology initiative that improved forest monitoring capabilities by 50%.
- Recognized as a top innovator in forestry technology by the Forest Innovation Network.
- Contributed to a significant increase in community engagement in forest management decisions.

WORK EXPERIENCE

FORESTRY TECHNOLOGY SPECIALIST

ForestTech Innovations

2020 - 2025

- Developed and implemented a GIS-based forest management system that increased operational efficiency by 25%.
- Utilized drone technology for forest inventory assessments, improving data accuracy and collection speed.
- Conducted training sessions for forestry professionals on the use of new technologies in forest management.
- Collaborated with research institutions to integrate scientific findings into practical management applications.
- Monitored and evaluated the effectiveness of technology-driven management practices.
- Engaged with stakeholders to promote the adoption of innovative forestry solutions.

ASSISTANT FOREST MANAGER

Green Canopy Forest Services

2015 - 2020

- Assisted in the development of forest management plans focusing on sustainability and biodiversity.
- Participated in community outreach programs to educate the public on forest conservation.
- Conducted field assessments to monitor forest health and identify areas for improvement.
- Supported reforestation efforts through the planting of native species and habitat restoration.
- Collaborated with local governments to ensure compliance with forestry regulations.
- Contributed to the development of educational materials on sustainable forestry practices.
