

MICHAEL ANDERSON

Senior Character Designer

Visionary Character Designer with a strong foundation in conceptual art and character development for immersive environments. Proven expertise in creating characters that not only serve aesthetic purposes but also enhance gameplay mechanics and user experience. Adept at utilizing a variety of artistic techniques and tools to develop character designs that resonate with players on an emotional level.

WORK EXPERIENCE

Senior Character Designer

2020-2023

Immersive Game Studios

- Led a team of designers in creating characters for immersive gaming experiences.
- Utilized 3D modeling software to develop detailed character models.
- Collaborated with gameplay designers to ensure character designs supported game mechanics.
- Conducted user testing to gather feedback on character effectiveness.
- Presented character design concepts to executive teams for approval.
- Mentored junior designers, fostering skill development and creativity.

Character Designer

2019-2020

Epic Fantasy Games

- Designed characters for fantasy-themed video games, focusing on lore and backstory.
- Worked closely with narrative teams to ensure character designs enhanced storytelling.
- Utilized software such as Blender and Substance Painter for character modeling.
- Participated in design reviews, incorporating feedback to refine character designs.
- Maintained a library of character design assets for future projects.
- Engaged in research to inform character design decisions based on player demographics.

ACHIEVEMENTS

- Recognized for 'Outstanding Character Design' at the Game Developers Choice Awards 2022.
- Increased player engagement by 50% through innovative character designs.
- Contributed to a game that won 'Game of the Year' at a prestigious gaming award ceremony.
