EXPERTISE SKILLS

- Software Development
- System Integration
- API Design
- User Experience
- Debugging
- Technical Documentation

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Computer Engineering, Tech University

MICHAEL ANDERSON

SOFTWARE ENGINEER - CHARGING SYSTEMS

Accomplished Charging Systems Engineer with a robust background in software development and systems integration within the electric vehicle sector. Over 6 years of comprehensive experience in designing and implementing software solutions that optimize charging infrastructure. Demonstrated expertise in developing user-friendly interfaces and ensuring seamless communication between hardware and software components. Strong analytical skills enable the identification of system inefficiencies and the implementation of corrective actions.

PROFESSIONAL EXPERIENCE

ChargePoint Solutions   *Mar 2018 - Present*
Software Engineer - Charging Systems

- Designed and implemented software solutions for charging stations, enhancing user experience.
- Developed APIs for integration with mobile applications and third-party services.
- Conducted code reviews and provided mentorship to junior developers.
- Collaborated with hardware engineers to ensure compatibility and performance.
- Performed debugging and troubleshooting of software issues.
- Prepared software documentation and user guides.

Electric Innovations   *Dec 2015 - Jan 2018*
Charging Systems Engineer Intern

- Assisted in the development of software for charging station monitoring.
- Participated in testing and validation of hardware-software interactions.
- Supported the creation of technical documentation for system features.
- Analyzed user feedback to recommend software improvements.
- Collaborated with cross-functional teams on project deliverables.
- Contributed to the development of training materials for end-users.

ACHIEVEMENTS

- Streamlined software deployment processes, reducing time by 20%.
- Recognized for outstanding contributions to team projects and innovation.
- Contributed to a successful software release that improved system reliability.
