SKILLS

- Interdisciplinary Teaching
- Renewable Energy
- Team-Based Learning
- Research Publication
- Curriculum Improvement
- Student Engagement

EDUCATION

**M.S. IN CHEMICAL ENGINEERING,
UNIVERSITY OF SUSTAINABLE
TECHNOLOGY**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Published a guide on sustainable practices in chemical engineering education.
- Awarded the Faculty Excellence Award in 2020.
- Received funding for research on innovative chemical processes in energy applications.

Michael Anderson

CHEMICAL ENGINEERING LECTURER

Innovative Chemical Engineering Educator with a focus on interdisciplinary approaches to chemical engineering education. With over 8 years in academia, I have developed a reputation for creating engaging learning experiences that connect chemical engineering concepts with real-world applications. My teaching strategy emphasizes collaborative problem-solving and the integration of emerging technologies into the curriculum.

EXPERIENCE

CHEMICAL ENGINEERING LECTURER

University of Interdisciplinary Studies

2016 - Present

- Designed and taught courses on renewable energy systems and their chemical engineering applications.
- Implemented team-based learning strategies to enhance student collaboration.
- Conducted research on energy-efficient chemical processes, leading to several publications.
- Organized interdisciplinary workshops to promote cross-departmental collaboration.
- Guided students in developing innovative projects focused on sustainable energy solutions.
- Participated in faculty committees to improve curriculum relevance and effectiveness.

GRADUATE TEACHING ASSISTANT

State University of Chemical Engineering

2014 - 2016

- Assisted in teaching undergraduate courses in chemical reaction engineering.
- Facilitated laboratory sessions to ensure student understanding of practical applications.
- Developed supplemental instructional materials to aid learning and retention.
- Provided feedback on student projects and presentations to enhance their skills.
- Conducted review sessions before exams to improve student performance.
- Engaged in departmental initiatives to enhance graduate student support services.
