EDUCATION

Bachelor of Science in Biochemistry

University of Health Sciences
2011

SKILLS

- molecular biology
- assay development
- regulatory compliance
- project management
- teamwork
- data analysis

LANGUAGES

- English
- Spanish
- French

Detail-oriented Chemical Laboratory Scientist with over 9 years of experience in the biotechnology sector. Expertise in molecular biology techniques and chemical analysis to support drug development and diagnostic testing. Proven track record in developing assays and analytical methods that enhance research outcomes. Adept at working in fast-paced environments, managing multiple projects simultaneously while ensuring high-quality results.

💼 WORK EXPERIENCE

Biotechnology Analyst   2020-2023
BioTech Solutions

- Developed and optimized assays for the detection of biomarkers in clinical samples.
- Conducted chemical analyses to support drug formulation and testing.
- Collaborated with cross-functional teams to drive projects from concept to clinical trials.
- Maintained compliance with GLP and regulatory standards throughout laboratory operations.
- Trained junior scientists on advanced analytical techniques and laboratory safety.
- Presented research findings at international conferences, enhancing company visibility.

Laboratory Technician   2019-2020
MedTech Labs

- Assisted in the preparation and analysis of biological samples using PCR and ELISA.
- Documented results and contributed to regulatory submissions for clinical trials.
- Maintained laboratory equipment and ensured adherence to safety protocols.
- Improved data collection efficiency by 20% through optimized workflows.
- Participated in training sessions to enhance laboratory skills and knowledge.
- Collaborated with researchers to troubleshoot assay-related issues.

★ ACHIEVEMENTS

- Developed a novel assay that increased diagnostic accuracy by 25%.
- Contributed to a research project that received a national award for innovation.
- Recognized for excellence in laboratory practices and team collaboration.
