MICHAEL ANDERSON

ENVIRONMENTAL RISK ENGINEER

Dedicated Chemical Risk Engineer with over 12 years of experience in the environmental sector. Expertise in assessing chemical risks associated with waste management and remediation projects. Strong background in environmental regulations and compliance, with proven success in developing strategies to minimize chemical exposure and environmental impact. A collaborative leader known for driving safety culture within teams and engaging stakeholders in environmental initiatives.

PROFESSIONAL EXPERIENCE

GreenEarth Solutions

Mar 2018 - Present

Environmental Risk Engineer

- Conducted environmental risk assessments for hazardous waste sites and proposed remediation strategies.
- Developed and implemented safety protocols that reduced chemical exposure risks by 50%.
- Collaborated with regulatory agencies to ensure compliance with environmental laws.
- Managed environmental audits and inspections, resulting in zero non-compliance findings.
- Trained staff on environmental safety practices and emergency response procedures.
- Utilized GIS software for mapping and analysis of hazardous sites.

EcoChem Corp.

Dec 2015 - Jan 2018

Chemical Safety Specialist

- Evaluated chemical risks in waste management processes and developed mitigation plans.
- Collaborated with cross-functional teams to ensure safe handling and disposal of hazardous materials.
- Prepared reports on chemical safety performance and compliance metrics for management.
- Led training sessions on environmental regulations and chemical safety procedures.
- Monitored changes in environmental legislation to maintain compliance and inform stakeholders.
- Participated in community outreach programs to promote environmental awareness.

ACHIEVEMENTS

- Achieved a 60% reduction in environmental incidents through effective risk management strategies.
- Received the 'Green Award' from GreenEarth Solutions for outstanding contributions to environmental safety.
- Published an article on chemical safety in environmental remediation in a leading journal.
