## EDUCATION

**Bachelor of Science in Pharmaceutical Chemistry**
University of Pharma Sciences
2016-2020

## SKILLS

- Pharmaceutical Manufacturing
- Quality Assurance
- Regulatory Compliance
- Analytical Techniques
- Team Training
- Process Monitoring

## LANGUAGES

- English
- Spanish
- French

Experienced Chemical Standards Engineer with a specialization in pharmaceutical manufacturing. Over 9 years of experience in ensuring compliance with regulatory standards in the production of pharmaceutical products. My expertise encompasses a wide range of chemical processes, including formulation, testing, and quality assurance. I have successfully implemented quality control systems that have significantly improved product safety and efficacy.

## WORK EXPERIENCE

### Senior Chemical Standards Engineer
2020-2023

PharmaTech Inc.

- Oversaw chemical compliance for pharmaceutical product development.
- Developed and enforced quality assurance protocols in production.
- Conducted extensive testing to verify product safety and efficacy.
- Trained teams on compliance with FDA regulations and best practices.
- Collaborated with R&D to innovate new pharmaceutical formulations.
- Monitored production processes to maintain high quality standards.

### Chemical Quality Control Engineer
2019-2020

MediChem Labs

- Performed quality control tests on pharmaceutical products.
- Assisted in the implementation of new quality management systems.
- Prepared documentation for regulatory inspections and audits.
- Engaged in root cause analysis for product failures.
- Collaborated with production teams to ensure compliance with safety standards.
- Conducted training on quality assurance processes for staff.

## ACHIEVEMENTS

- Improved product safety metrics by 30% through enhanced testing protocols.
- Awarded for leadership in implementing a new quality management system.
- Successfully led a project that reduced production downtime by 25%.
