Proactive Chemical Sustainability Engineer with a diverse background in the textile industry, focusing on the application of sustainable chemical processes. With over 4 years of experience, I have successfully implemented initiatives that significantly reduce water and chemical usage in textile production. My expertise includes process analysis, sustainability reporting, and compliance with environmental standards.

WORK EXPERIENCE

Sustainability Process Engineer | EcoTextiles Inc.

Jan 2022 – Present

- Developed and implemented processes that reduced water usage by 40% in production.
- Collaborated with suppliers to source sustainable dyes and chemicals.
- Monitored compliance with environmental regulations and sustainability standards.
- Conducted training sessions for staff on sustainable practices in textile production.
- Analyzed production data to identify areas for improvement in sustainability.
- Led projects aimed at minimizing waste and promoting recycling in operations.

Chemical Engineer | GreenWeave Textiles

Jul 2019 – Dec 2021

- Assisted in developing eco-friendly textile treatments that reduced chemical usage by 20%.
- Participated in sustainability audits to ensure compliance with industry regulations.
- Analyzed product performance to enhance sustainability metrics.
- Worked closely with R&D to innovate sustainable textile products.
- Presented findings on sustainability initiatives to management and stakeholders.
- Contributed to the development of a waste management plan that increased recycling rates.
