ACHIEVEMENTS

- Led a project that resulted in a 30% increase in program participation among at-risk families.
- Awarded for Best Paper at the National Child Welfare Conference.
- Successfully secured \$500,000 in grant funding for innovative child welfare research.

PROFILE

Innovative Child Welfare Research Analyst with a robust background in data-driven evaluation and program improvement. Specializes in the intersection of child welfare policy and community engagement, demonstrating a unique ability to translate research findings into actionable strategies. Exhibits exceptional communication skills, adept at conveying complex information to diverse audiences. Committed to leveraging research to enhance child protection services and advocate for systemic change.

EXPERIENCE

CHILD WELFARE POLICY ANALYST

Institute for Child and Family Policy

2016 - Present

- Analyzed data trends to identify gaps in child welfare services across multiple jurisdictions.
- Developed comprehensive reports that informed policy recommendations for state agencies.
- Facilitated focus groups with stakeholders to gather insights on service effectiveness.
- Collaborated with data scientists to enhance predictive analytics capabilities.
- Presented research findings at national conferences, influencing child welfare practices.
- Implemented a feedback loop with practitioners to refine research approaches.

PROGRAM EVALUATOR

Children's Advocacy Center

2014 - 2016

- Conducted evaluations of community programs aimed at improving child welfare outcomes.
- Utilized mixed-methods approaches to assess program effectiveness and impact.
- Engaged with families to understand their experiences and gather qualitative feedback.
- Developed training materials for staff to better implement evidence-based practices.
- Collaborated with local organizations to enhance service delivery systems.
- Presented evaluation results to stakeholders, leading to increased funding for successful programs.
