Dedicated City Development Consultant with a specialization in environmental design and urban sustainability. Expertise in creating environments that promote ecological balance and enhance urban livability. Proven track record of integrating sustainable practices into urban planning processes to achieve long-term environmental goals. Strong collaborative skills demonstrated through partnerships with environmental organizations and local governments.

## WORK EXPERIENCE

### Environmental Design Consultant | Eco-City Planning Group

Jan 2022 – Present

- Developed urban design projects that incorporated green infrastructure elements.
- Conducted workshops on sustainable design practices for city planners.
- Collaborated with architects to create eco-friendly building designs.
- Evaluated environmental impacts of urban development projects.
- Prepared sustainability reports for city officials, influencing policy decisions.
- Engaged with community members to promote awareness of environmental issues.

### Sustainability Policy Consultant | City Environmental Agency

Jul 2019 – Dec 2021

- Advised city officials on policies to promote urban sustainability initiatives.
- Conducted assessments of urban areas for environmental compliance.
- Facilitated community forums to discuss sustainability challenges.
- Prepared educational materials on sustainable urban practices.
- Collaborated with non-profits to implement community-based environmental programs.
- Monitored urban development projects for adherence to sustainability guidelines.
