MICHAEL ANDERSON

CIVIC TECHNOLOGY PROJECT MANAGER

Strategic Civic Technology Engineer with extensive experience in implementing technology-driven solutions that facilitate enhanced public engagement and operational efficiency within governmental frameworks. A strong background in data science and software development, coupled with a keen understanding of civic processes, enables the delivery of impactful digital platforms that resonate with user needs.

PROFESSIONAL EXPERIENCE

Digital Government Solutions

Mar 2018 - Present

Civic Technology Project Manager

- Managed the end-to-end development of a comprehensive civic engagement platform.
- Implemented agile methodologies to enhance project delivery timelines and quality.
- Coordinated cross-departmental collaborations to streamline service delivery processes.
- Utilized data analytics to inform strategic decisions and improve service utilization.
- Presented project outcomes to city council, securing ongoing support and funding.
- Developed training materials to empower staff on new technological tools.

Civic Tech Innovations

Dec 2015 - Jan 2018

Software Engineer

- Designed and developed software applications for public service delivery.
- Conducted user testing and iteration based on community feedback.
- Collaborated with data scientists to integrate analytics into civic tech solutions.
- Participated in hackathons to prototype new civic engagement tools.
- Documented technical specifications and user guides for end-users.
- Mentored junior developers in best practices for civic technology development.

ACHIEVEMENTS

- Increased user adoption of civic platforms by 70% through targeted outreach and education.
- Successfully led a project that won the National Civic Tech Innovation Award.
- Reduced operational costs by 25% through the implementation of efficient technology solutions.
