SKILLS

- BIM
- Public Works
- Project Management
- Stakeholder Engagement
- Environmental Sustainability
- Training

EDUCATION

**BACHELOR OF SCIENCE IN CIVIL
ENGINEERING, COMMUNITY UNIVERSITY**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Contributed to a public works project that received a state award for excellence in infrastructure.
- Improved project turnaround time by 20% through effective BIM implementation and teamwork.
- Recognized for outstanding service during a challenging project involving community stakeholders.

Michael Anderson

PROJECT BIM ENGINEER

Experienced Civil BIM Engineer with 7 years in infrastructure development, focusing on public works projects. My technical expertise in BIM has enabled me to enhance the design and construction processes for various civic projects, including roads and bridges. I excel in stakeholder management, ensuring that all voices are heard throughout the project lifecycle.

EXPERIENCE

PROJECT BIM ENGINEER

Municipal Engineering Services

2016 - Present

- Oversaw BIM implementation for a \$300M public transportation project, enhancing cross-department collaboration.
- Developed detailed 3D models that facilitated stakeholder engagement and project approvals.
- Conducted weekly project reviews to ensure alignment with timelines and budget constraints.
- Collaborated with environmental engineers to incorporate sustainability practices into project designs.
- Facilitated training for junior engineers on BIM tools and methodologies.
- Maintained accurate project documentation, ensuring compliance with regulatory standards.

JUNIOR BIM TECHNICIAN

City Public Works Department

2014 - 2016

- Assisted in the development of BIM models for a major infrastructure upgrade, improving design accuracy.
- Engaged in clash detection processes that minimized rework during construction.
- Supported project managers in maintaining schedules and tracking project progress.
- Participated in community meetings to present project plans and gather public feedback.
- Updated project documents to reflect changes and ensure transparency among stakeholders.
- Collaborated with surveyors to integrate site data into BIM models, enhancing project feasibility.
