EDUCATION

Master of Science in Geotechnical Engineering

University of Texas at Austin

2016-2020

SKILLS

- Geotechnical Engineering
- Site Development
- Earthworks
- Project Management
- Safety Protocols
- Team Mentoring

LANGUAGES

- English
- Spanish
- French

Proficient Civil Construction Manager with a solid foundation in geotechnical engineering and site development. Over 9 years of experience in managing construction projects focused on earthworks, foundations, and site preparation. Demonstrated expertise in utilizing geotechnical analysis to inform construction methods and ensure structural integrity. Strong leadership capabilities with a focus on mentoring junior engineers and fostering team collaboration.

WORK EXPERIENCE

Civil Construction Manager

2020-2023

Earthworks & Foundations Ltd.

- Managed site preparation and earthwork projects for commercial developments.
- Conducted geotechnical assessments to inform construction methodologies.
- Oversaw compliance with environmental regulations during excavation activities.
- Trained junior staff on safety protocols and best practices.
- Developed project timelines and budgets to ensure on-time delivery.
- Collaborated with engineering teams to resolve design challenges.

Geotechnical Engineer

2019-2020

Foundation Engineering Corp.

- Conducted soil investigations and geotechnical studies for various projects.
- Prepared reports detailing findings and recommendations for construction.
- Assisted project managers in the evaluation of site conditions.
- Collaborated with construction teams to address soil-related challenges.
- Maintained communication with clients regarding project status and findings.
- Implemented quality assurance measures during site investigations.

ACHIEVEMENTS

- Successfully led a project that enhanced site stability and reduced costs for the client.
- Received 'Outstanding Engineer' award for contributions to innovative construction techniques.
- Published research on soil stabilization methods in a peer-reviewed journal.
