

# MICHAEL ANDERSON

## Construction Management Professor

Passionate Civil Engineering Educator with a focus on construction management and over 9 years of teaching experience. I am committed to providing students with a comprehensive understanding of construction processes and project management techniques. My teaching philosophy emphasizes real-world applications and the importance of leadership in engineering projects. With a background in both academia and industry, I bring practical insights into the classroom that enhance student learning.

### EDUCATION

#### Master's in Construction Management

Building University  
2016-2020

### SKILLS

- Construction Management
- Project Delivery
- Curriculum Development
- Student Mentorship
- Research
- Industry Collaboration

### LANGUAGES

- English
- Spanish
- French

### WORK EXPERIENCE

#### Construction Management Professor

2020-2023

Urban Engineering University

- Developed and taught courses on construction management and project delivery methods.
- Implemented case studies that allowed students to analyze real construction projects.
- Mentored students on capstone projects, focusing on leadership and teamwork skills.
- Collaborated with industry partners to provide internship opportunities for students.
- Conducted research on construction efficiency and project risk management.
- Organized workshops on industry best practices in construction management.

#### Civil Engineering Instructor

2019-2020

East Coast Technical College

- Taught construction materials and methods courses to undergraduate students.
- Engaged students in hands-on projects to apply theoretical knowledge.
- Evaluated student performance and provided constructive feedback for improvement.
- Coordinated with local construction firms to align curriculum with industry needs.
- Participated in departmental committees to enhance academic standards.
- Facilitated student-led projects that contributed to local community development.

### ACHIEVEMENTS

- Received the Outstanding Instructor Award for innovative teaching methods.
- Increased student internship placements by 50% through industry partnerships.
- Published research on construction project efficiency in reputable journals.
