### WORK EXPERIENCE

#### CLIMATE POLICY ANALYST

Climate Advocacy Coalition

2020 - 2025

- Conducted policy analysis to assess the implications of climate legislation on communities.
- Developed climate action plans in collaboration with local governments.
- Engaged stakeholders through public forums to discuss climate impacts and solutions.
- Published policy briefs that highlight key findings and recommendations.
- Presented at legislative hearings to advocate for climate-friendly policies.
- Coordinated outreach efforts to raise public awareness on climate change issues.

#### RESEARCH FELLOW

Center for Climate Solutions

2015 - 2020

- Analyzed socio-economic data to evaluate the effects of climate change on vulnerable populations.
- Collaborated with researchers to develop innovative climate adaptation strategies.
- Contributed to reports that informed policy recommendations for climate resilience.
- Engaged in community outreach programs to educate citizens about climate change.
- Participated in workshops to build capacity among local leaders on climate policy.
- Supported grant writing initiatives to secure funding for climate research projects.
