WORK EXPERIENCE

Lead Climate Science Teacher

2020-2023

Greenwood High School

- Developed and implemented a climate science curriculum for grades 9-12.
- Organized field trips to local renewable energy sites for experiential learning.
- Facilitated student-led projects focusing on sustainability and climate action.
- Collaborated with local organizations to enhance environmental education opportunities.
- Utilized technology to create interactive learning modules for students.
- Evaluated student performance and adapted curriculum based on feedback.

Environmental Education Coordinator

2019-2020

Community Green Initiative

- Designed educational programs focused on climate literacy for local youth.
- Conducted workshops and seminars for community members on sustainability.
- Collaborated with schools to integrate environmental education into their curricula.
- Monitored program outcomes and made recommendations for improvements.
- Engaged with parents and community leaders to promote climate initiatives.
- Developed online resources to support climate education efforts.

ACHIEVEMENTS

- Increased student enrollment in climate programs by 30% within two years.
- Recognized for excellence in teaching with the 'Green Teacher Award'.
- Successfully launched a community-wide sustainability challenge that engaged over 500 participants.
