

MICHAEL ANDERSON

CLINICAL DATA ANALYST

PROFILE

Results-driven Clinical Data Analyst with over 4 years of experience in pharmaceutical research. Recognized for expertise in data analysis and interpretation, with a strong focus on enhancing the quality and accuracy of clinical trial data. Proficient in using data visualization tools to present findings to stakeholders and make data-driven recommendations. Skilled in developing and maintaining databases to ensure seamless data flow and integrity throughout the research process.

EXPERIENCE

CLINICAL DATA ANALYST

Pharma Innovations LLC

2016 - Present

- Conducted comprehensive data analyses for Phase II and III clinical trials.
- Implemented data quality assurance processes that improved data accuracy by 25%.
- Collaborated with biostatisticians to develop statistical analysis plans.
- Designed dashboards to visualize key performance indicators for project tracking.
- Participated in cross-functional meetings to align on data requirements and timelines.
- Published findings in peer-reviewed journals, enhancing company visibility in the industry.

RESEARCH ASSISTANT

University Research Center

2014 - 2016

- Assisted in managing clinical trial databases and data entry processes.
- Performed preliminary data analysis to support ongoing research projects.
- Helped prepare documentation for regulatory submissions and audits.
- Maintained compliance with Good Clinical Practice (GCP) standards.
- Provided technical support to research teams on data management software.
- Facilitated training sessions for new interns on data collection methodologies.
